

Princes Gate -Water Stewardship Internal Governance

At Nestlé Waters Princes Gate the responsibility and leadership of water stewardship for the management of technical risks, reputational and regulatory issues related to water resources is undertaken by personnel in the following roles:

- Quality of water resources – Quality Manager
- Quantity of water resources - Water Resources Manager
- Health, Safety and Environment – SHE Manager
- Regulatory compliance - Water Resources Manager
- Corporate affairs, local reputation and communications - Head of Corporate Affairs and Sustainability
- Community Stakeholder Engagement – Sustainability Manager

The Plant Manager has overall responsibility for water stewardship at the Princes Gate site. The current internal governance organisational chart for water stewardship is shown below. I the undersigned, Matthew Faulkner, Factory Manager declared that the organisation of the water stewardship is that as detailed above.

Matthew Faulkner
